## WELCOME TO ISAP 2015

The ISAP Technical Committee "Asphalt Pavements and Environment" has the pleasure of announcing the 3rd APE ISAP Symposium - 16th August 2015 at Sun City.

ISAP offers a forum through its Technical Committee TC APE, for international asphalt pavement technology enhancement, research and information exchange. Following the tradition of previous such events in Zurich and Fortaleza, this ISAP APE Symposium 2015 is linked to CAPSA2015, a locally established conference, aiming to enhance the international contributions to the events. ISAP TC APE also aims to dovetail with CAPSA 2015, bringing an international perspective of research and development, with creative, sustainable solutions for flexible pavements.

# 3<sup>rd</sup> APE ISAP Symposium 2015

## TOPICS (from ISAP APE Working Groups)

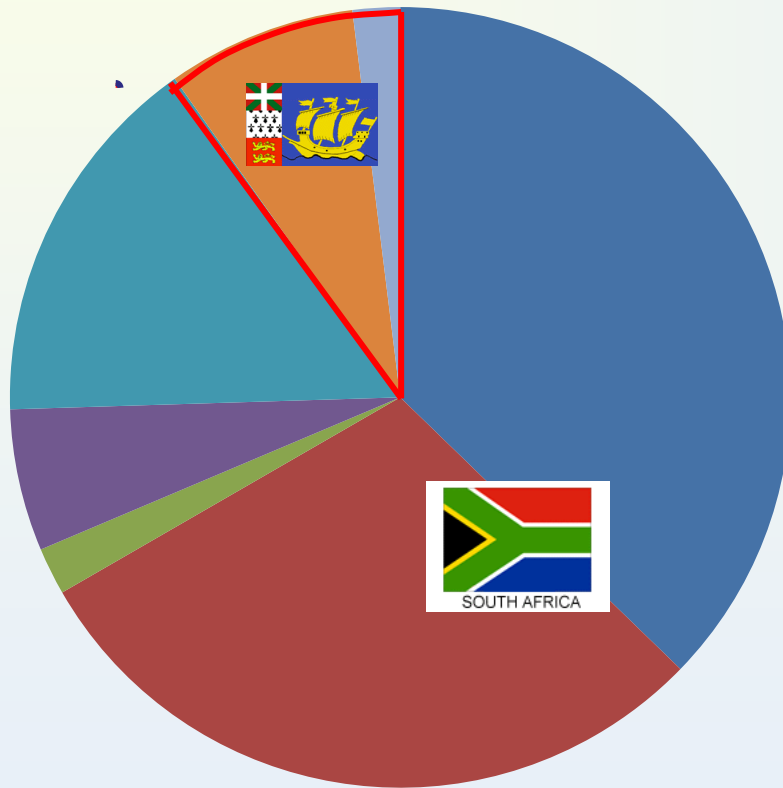

- Hot recycling of RAP (not much response – more N Hemisphere)
- Cold recycling of RAP (Special Session)
