

33rd ROAD PAVEMENTS FORUM

Square Boutique Hotel & Spa, Umhlanga

9-10 May 2017

(ECSA CPD No. SARF/17/033/20)

Resolutions

Resolution 1

- RPF to assist with the establishment of a new Working Committee for Cementitious Stabilised Road Materials – (i.e. revision of TRH 13) - *Mr Dennis Rossmann to Chair*
 - *Revamping old RPF Committee ?*

Resolution 2

- RPF assists with further development towards practical characteristics, i.e. transfer functions (or limiting tensile strain values) for empirical-mechanistic (M-E) design of relatively high stiffness bituminous road base materials.
 - *Awareness of the traffic loading demand on these pavement structures of critical importance.*

Resolution 3

- SABITA (via RPF ?) to assist with the certification process of cold mix asphalt, i.e. developing technical guidelines towards Agreement certification
 - *Cold Mix Products are then supposed to be measured against these guidelines for Agreement certification*

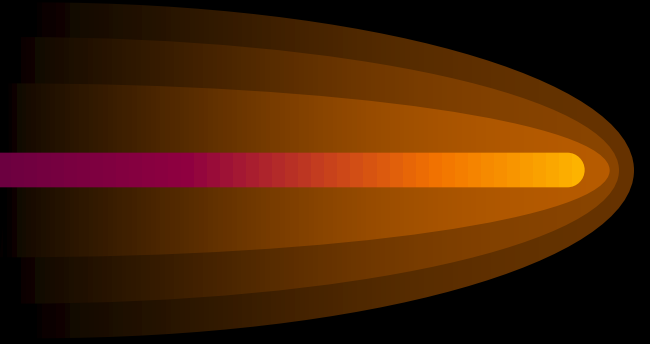

Resolution 4

- Proposal towards acceptance of a new SANS Standard BT25 - Binder Distribution Calibration
 - *Purpose for uniform distribution of binder*

Resolution 5

- *<add>*

Next RPF Meeting

- **Date**
 - **14-15 November 2017 (tentative)**
- **Venue**
 - **CSIR International Conference Centre, Pretoria, Gauteng.**
